TCAP Consulting is an organization that prides itself on partnering with our clients to deliver quality outcomes.

We at TCAP Consultancy hold ourselves to highest standards and take pride in quality of work we do. We believe in continuously educating ourselves with the new technologies and new trends in the market.

The TCAP service is divided into four departments

TCAP Recruitment

We offer specialist recruitment and advisory services to help our clients achieve most from their budget. We believe in comprehensive research and face to face conversations with our candidates. We ensure that along with subject matter expertise the potential candidates also have right personality attributes to seamlessly integrate in the team.

We pride ourselves in keeping our margins to minimum and ensure that maximum of client budge is paid to the contractors.

TCAP Engineering

The experienced TCAP team deliver safe, high quality, end-to-end engineering solutions. Our engineers and PM's have worked in engineering projects with some of the biggest names in mining, oil and gas, transport, railway, and services industry. Our services span the entire engineering process, from the initial study phase to high level designs, detailed design. Commissioning, testing, handover, and operations phase.

With our highly disciplined approach, adherence to best practices, change management, and continuous improvement mindset we deliver measurable results that align with our unwavering focus on maximizing the value chain.

TCAP Consulting

Our consultants with decades of experience under their belt are most capable to provide consultancy at any stage of the project.

We have been involved in providing consultancy services for the most complicated engineering projects in Australia including AutoHaul, Rail technology programs, NMTAFE cyber security upgrades and many others. The safety criticality level of these projects and works carried out has enabled us to think outside the box.. We pragmatically align robust governance frameworks, implement risk management processes, and establish performance monitoring systems to ensure accountability and transparency. Our tailored solutions keep clients ahead of the curve in today's rapidly evolving digital landscape.
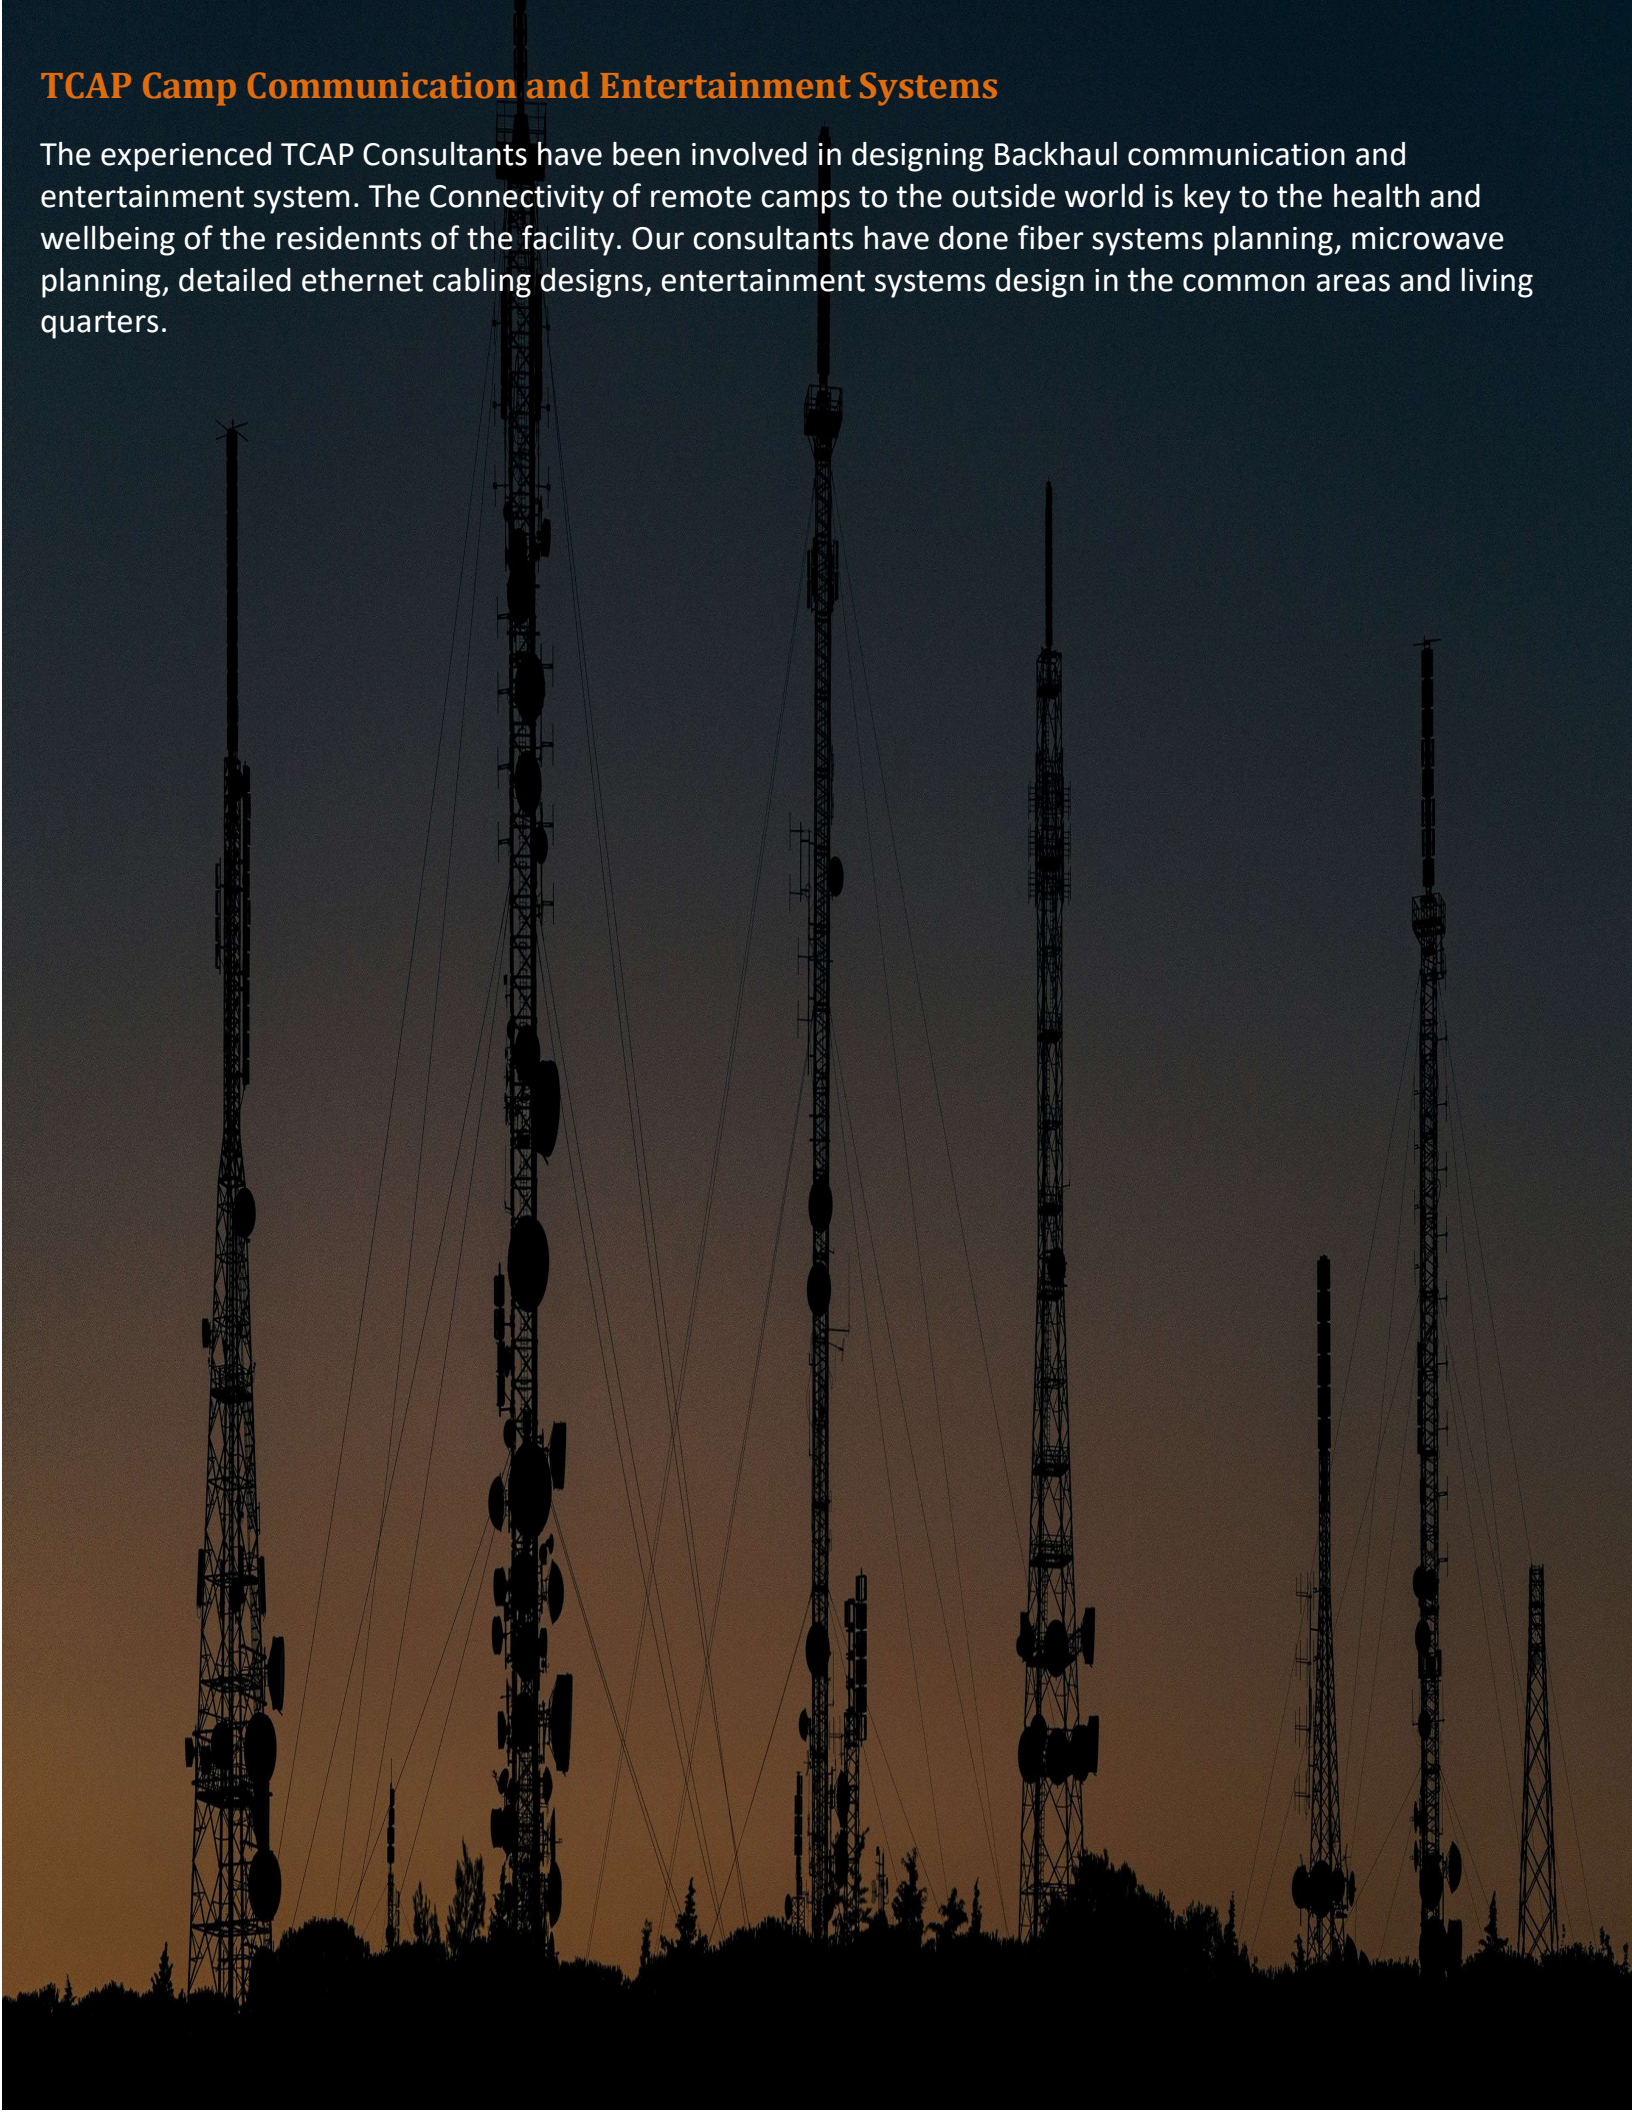

PROGRAM AND PROJECT MANAGEMENT

Using "real-world" experience and use cases provide complete end-to-end project and program management, including PMO formation and transition to sustainment. Our main goal is to guarantee that risk management and governance procedures are comprehended and integrated.

TCAP ICT and Telecommunications

Our ICT department takes care of all your communication needs. Our IT and Telecommunication engineers are expert in RF, LTE, 5G, Fiber, Microwave, IP/MPLS, networks, cyber security, azure and all other aspect of IT, OT systems designs. We have provided consultancy and engineering services for many complicated telecommunication projects in mining, railway, mobile networks, government and oil and gas.

TCAP Camp Communication and Entertainment Systems

The experienced TCAP Consultants have been involved in designing Backhaul communication and entertainment system. The Connectivity of remote camps to the outside world is key to the health and wellbeing of the residennts of the facility. Our consultants have done fiber systems planning, microwave planning, detailed ethernet cabling designs, entertainment systems design in the common areas and living quarters.

TCAP VALUES

We place the biggest priority on our values, which guide how we interact with each other and our clients.

Equality

We believe in equality of opportunity and outcome.

COURAGEOUS

We do the right thing, no matter what consequences are for us.

RESPECTFUL
